International Accounting Standards (IAS) and International Financial Reporting Standards (IFRS): A Comprehensive Overview

Introduction to International Accounting Standards

In the globalized economy, consistency, transparency, and comparability of financial statements are paramount for investors, regulators, and other stakeholders. To achieve this, internationally recognized accounting frameworks have been developed, primarily through the International Accounting Standards (IAS) and the International Financial Reporting Standards (IFRS). These standards are issued and maintained by the International Accounting Standards Board (IASB), aiming to harmonize accounting practices across countries and regions.

Historical Development of International Accounting Standards

Evolution of the Framework
